PROFESSIONAL EXPERIENCE

(November 2013 – August 2014)

SENIOR DESIGNER

EMAY DIGITAL MARKETING AGENCY (Nizhny Novgorod, Russia)

Full-service agency, providing integrated online advertising campaigns.

Clients included Volkswagen Group Russia, car dealerships, construction supplies producers and consulting firms.

As a member of newly created design team, I was responsible for wire-framing, design, UI and illustrations for websites, print media and corporate identity.

- Developed online catalogue for the biggest construction supplies factory in region, which have been featured in RuNet Rating(leading Russian web analytics project) in category "Best Construction and Real Estate websites of 2014".
- Worked on restructuring and redesign for Volkswagen's template site for authorized dealers. Developed new section for dealer's repair workshop with an advanced application form.

(September 2012 – November 2013)

DESIGNER

BURBON DESIGN STUDIO (Nizhny Novgorod, Russia)

Web-development and design company. Clients included city administration, SIBUR Holding (Russia's largest petrochemical company) and private companies.

I was responsible for planning, data structuring and design for websites.

- Worked on structure planning, UI and design for SIBUR's intra-net.
- Developed UI and design for online wholesale catalogue of construction materials.

(June 2010 – May 2012)

SENIOR CONSULTANT

MEGAFON (Nizhny Novgorod, Russia)

Third largest telecom operator in Russia with more than 76 millions subscribers.

Administrative, financial and cash operations management, education and training for employees, customers consulting.

- Established a document management system for customer service center under my direction, which significantly reduced processing time and errors in financial reports.
- Managing the customer service center, I was able to increase the operational efficiency and employees training methods, which resulted in high quality assessment from private and corporate clients.

EDUCATION
